Nybble		4b
Bit	b	

Storage is getting bigger and cheaper

- Music collections, downloaded television episodes, photos, games and videos are all things we want stored on our laptops, PC or mobile phone.
- We want and need it to be **portable** so it can come with us where ever we go.

TIMELINE OF STORAGE DEVICES

An Internal Hard drive is found inside your laptop and desktop computer

An external hard drive can be plugged into your laptop and desktop computer to give you extra storage space
