

Ms Cox- Art & Design Teacher

Hello everyone. I am Mrs Cox and I teach Art and Design. You will begin year 7 Art & Design by showing how well you can observe and draw a perfume bottle. You will develop your artwork by learning how to identify the visual elements of line, tone, shape, form, texture, colour and space. The first project is based on using these skills to create a 3D drawing of a teddy bear. Your second project is on colour theory. You will practise your paintbrush skills and learn how to mix colours and apply them to a colour wheel. The third project is on landscapes. You will learn how to paint an African landscape in perspective using a foreground, middle ground and background. The last project is great fun! You will make a ceramic animal money box. You will be using clay and a technique called thumb potting. I am sure you will enjoy your Art & Design lessons and I look forward to meeting you.
